

Tank Systems

Tank Systems

are a rugged line of tanks designed to fit most solution handling needs. All tanks are constructed of high density polyethylene (PE) and come in a variety of sizes. An available stand option provides a Stainless Steel Tripod stand with pump mounting shelf for all tank sizes on the Light and Heavy Duty Tanks.

Light Duty Linear Tanks

15 gallon tanks are translucent with 5 gallon increments and feature child resistant black caps. Other tanks have full fitted lids. 30 gallon tanks are HDPE Cream and 40 gallon tanks are HDPE White. 75 gallon tanks are HDPE Black. They feature a integral molded top with a 4 inch diameter opening.

Heavy Duty Tapered Tanks

Tapered PE tanks feature rigid covers which allow the top mounting of Chem-Tech 100, 200 and most PULSAtron pump models. 1/20 HP Flange Mount Mixers may also be mounted on the cover. Tanks available in 35 and 55 gallon capacities are translucent with 5 gallon graduations. (Not suitable for use with 1/3 HP Flange Mount Mixers.)

Industrial Duty Tank Systems

tanks and covers are constructed of high density translucent PE with tank stands constructed of heavy gauge steel with a black corrosion resistant finish. The space conserving base for pump mounting under tank prevents loss of prime by maintaining a flooded suction.

Key Features

Tank sizes from 15 to 200 gallon

High density polyethylene

Industrial Duty Tank Systems come completely piped with PVC bulkhead, ball valve, Y stainer and suction tubing. Tank features graduated increments in both U.S. gallons and liters.

* Note: All Series E pumps except (LE33, LE34 & LE44)

35 & 55 Gal Lid

Stand for 15-55 Gal

Typical Installations for 15 to 75 Gallon Tank Systems

Typical Tank, Stand, Feeder Combination
(shown with 15 Gallon Tank, Stand, Bulkhead Fittings and Chem-Tech Pump-all components are purchased separately.) Note: When using this type of mount, tank bulkhead fittings are required for the suction and/or return lines. Bulkhead fittings are available in 3/8" O.D. and 1/2" O.D. tubing connections and can be installed at the factory.

Typical Tank, Mixer, Feeder Combination
(shown with 55 Gallon Tapered PE Tank, 1/20 HP Mixer, PULSAtron Pump and Suction Tube Shield Assembly-all components are purchased separately.)
